

Enduring capital for essential progress.

Investment holding / Concept portfolio

Complex ideas. Patient execution.

Osher connects long-horizon capital with operating and scientific capability across systems that shape everyday life.

01 **FINANCE** Reliable financial infrastructure and accessible products.

02 **TECHNOLOGY** Software, intelligence and data systems for consequential work.

03 **LIFE SCIENCE** Biological approaches to remediation, soil and cultivation.

04 **INDUSTRY** Food production and next-generation construction materials.

From conviction to capability.

We work across the full arc of development while respecting the distinct expertise required at every stage.

01

DISCOVER

Identify structural needs and differentiated insight.

02

VALIDATE

Pressure-test science, product, governance and economics.

03

BUILD

Add focused capital, operating discipline and expert networks.

04

SCALE

Grow responsibly with resilience designed into the system.

Start a considered conversation.
